DETAILED ACTION

1. Please Note: In an effort to enhance communication with our customers and reduce processing time, Group 1640 is running a Fax Response Pilot for Written Restriction Requirements. A dedicated Fax machine is in place to receive your responses. The Fax number is 703-308-4315. A Fax cover sheet is attached to this Office Action for your convenience. We encourage your participation in this Pilot program. If you have any questions or suggestions please contact Paula Hutzell, Ph.D., Supervisory Patent Examiner at Paula.Hutzell@uspto.gov or 703-308-4310. Thank you in advance for allowing us to enhance our customer service. Please limit the use of this dedicated Fax number to responses to Written Restrictions.

In view of the delays in the mail at the present time, the office strongly encourages faxing responses.

2. Applicant's amendment filed, 1/8/02 (Paper No. 8) is acknowledged.
Claims 27-45 and 47-69 are pending.

Applicant's election without traverse of Group II (claims 27-30, 32-39, and 40-~~46~~⁶, now claims 27-30, 32-45, and 50-69) in Paper No. 8 is acknowledged.

Claims 31 and 47-49 are withdrawn from further consideration by the Examiner, 37 C.F.R. § 1.142(b) as being drawn to a non-elected invention.

Claims 27-30, 32-45, and 50-69 are under consideration in the instant application.

3. It is noted that applicant has not responded to the species election set forth in the restriction requirement mailed 10/31/01, Paper No. 6. In view of the newly submitted claims 50-69, the following species election is set forth.

Species Election

4. Applicant is required under 35 USC 121 (1) to elect a single disclosed species to which the claims would be restricted if no generic claim is finally held to be allowable and (2) to list all claims readable thereon, including those subsequently added.

Applicant is required to elect a method of delivering a therapeutic agent comprising administering a conjugate comprising a specific therapeutic agent (e.g. 5-fluorouracil as recited in claim 55 **or** calicheamycin as recited in claim 60 **or** mycotoxin as recited in claim 63, etc.) attached to a specific CD30L polypeptide (e.g. one of SEQ ID NOS;6, 19, 8, or 23).

These species are distinct because the methods of delivering a therapeutic agent differ with respect to the structures of the specific therapeutic agent and the specific CD30L polypeptide; thus each specific method employing a specific therapeutic agent and the specific CD30L polypeptide represents patentably distinct subject matter.

5. Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election. Currently, claims 27 and 28 are generic.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. § 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. M.P.E.P. § 809.02(a).

Art Unit: 1644

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. § 103 of the other invention.

6. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Megan Jamroz whose telephone number is (703) 308-8365.
